## HOLD TWO MEN ON CHARGE OF ARSON HERE

Arrests Follow Investigation into Blaze in Marion Theater Building.

### PLANNED STORE HERE

Pair Admits This Was Fourth Fire in Their Properties Since August.

Ben Miller, 27, of Sandusky, and Sam Friers, 28, of Cleveland, brothers-in-law, were arrested by State Fire Marshall L. J. Patterson and Deputy Fire Marshall H. V. Ulmer here late yesterday afternoon on a charge of arson in connection with the fire May 23 which damaged the store room in the Marion theater building and destroyed a quantity of shoes which had been placed in the room by Miller in anticipation of opening a store.

The arrest of the two men followed an investigation by the fire marshal, his assistant and Marion Fire Chief T. J. McFarland since the day before his last game played golf for several hours, working hard at his play, and was being seen elsewhere.

Mr. Coolidge should learn to take care of himself.

Takes Insurance

Two weeks before the fire, Patterson said this morning, Miller took out \$7,500 insurance on the stock of shoes as well as on all of the plate glass including the windows. An inventory of the stock taken by local shoe dealers following the fire showed the stock to be worth approximately \$800.

This together with the finding of the rear door of the store open by firemen when they reached the fire, and the rapidity with which the fire spread, led to the investigation by fire officials and resulted in the arrest of the two men yesterday.

The Marion fire, Patterson said, was the fourth to occur to stores owned by the two since last August. A store owned in Cleveland was partially destroyed last fall, followed by fires at Sandusky and Fostoria.

The suspicions of Fire Chief McFarland were first aroused when firemen found practically the entire stock of shoes dumped in the center of the floor from which the fire apparently started.

### Room Mass of Flames

Despite the fact that the blaze started in the pile of shoes not more than 20 minutes before the discovery of the fire by a patrolman, the entire room was in flames when the firemen arrived. The heat was so intense that all of the windows were broken and firemen were unable to enter the room. Had the fire been discovered five minutes later, Fire Marshall Patterson said this morning, the entire block in all probability would have been destroyed.

Both men said they were at their homes and not in the city on the night of the fire. While admitting the fires in other cities they denied having any part in their cause. They admitted the stock in the store room here was made up of odds and ends sent from their other stores and included a quantity of rubbers and galoshes, officials said. Local shoe dealers who made the inventory said the stock was composed principally of old style shoes and odd lots, only a few were in boxes.

Although the fire started in the pile of shoes, shelving a few feet away was not burned while the walls, ceilings and a balcony around the end of the room showed the result of an intense fire. Patterson said it was his belief that the walls and floor was saturated with oil and a lighted match tossed in from the rear door.

## Schell Names Committees To Aid in C. of C. Work

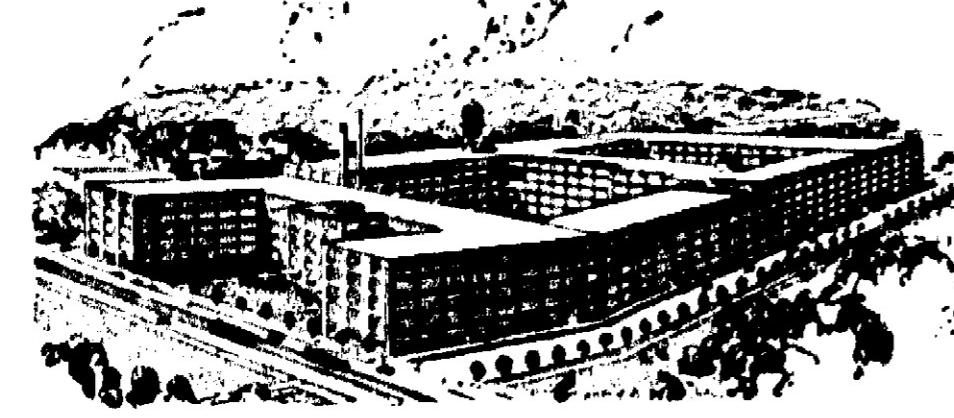

Memberships in Groups Selected on Records of Past Willingness To Work in Projects Sponsored by Civic Organization, President Says.

Committees to assist in the perfection of a program calling for greater industrial expansion in Marion were announced today by Karl W. Schell, president of the Marion chamber of commerce. "Much of the work of the chamber will be carried on through committees," Mr. Schell said. "I have no time to continue," he continued. "I have been careful to choose committee men who in the past have been willing to do any work assigned them for the general betterment of Marion."

## CLUB HEARS WELFARE HEAD

John McSweeney Speaks at Meeting of Kiwanis Club.

Man's greatest obligation is the cure of the unfortunate and unfit, John McSweeney, state director of welfare, told members of the Kiwanis club at their weekly luncheon at the Marion club yesterday.

It is this humanitarian motive, and no other, that will in the final analysis, provide the real foundation for world peace, the speaker declared.

Commends Club

He also took the opportunity to commend the members of the club for the part they were playing in the carrying on of this work and asked that they cooperate with the state welfare department in furthering what he declared was the most important work in the state.

The work of the other departments is secondary, he said, a mistake in the building of a road or the auditing of books, can be remedied, but an underprivileged child or a man, who is permitted to become a burden to themselves and to the state, is a tragedy that cannot be remedied.

Pointing to the establishing of the prison farm at London and the building of hospitals for the blind and the epileptic as outstanding examples, the speaker said Ohio had led in many of the welfare projects in the country.

He also pointed out as a move toward rehabilitation, the giving of certificates of ability to the boys of the reformatories who, during their stay, had completed some worthwhile work. Such a plan was now being considered, he said.

Tells of Board

The establishing of a board of clemency which is now being planned in this state, was declared.

in the speaker to be a long step toward those who have been in the right direction. The board, he said, would determine the length of time a person should serve in prison.

Expressing the belief that the presence of prison walls had a tendency to warp the minds of the prisoners the welfare director said he hoped that if ever another prison were built on an island would be selected where the prisoners would not be constantly cut off by a blank wall.

People grow better or worse with whom they are associated, he declared. "And it is the personal responsibility to assure every Christian to assume a spirit of anti-social

Elimination of Road-Rail Intersections To Be Studied by Body.

The Junior Chamber of Commerce will work in a field adjacent to that cultivated by the senior chamber by selling Marion to business while the senior chamber sells Marion to outside industries and business concerns with the intent of attracting them to this W. D. Brown, executive vice president of the Marion chamber members of the junior organization at a dinner meeting in the chamber last night.

Prints talk was the feature of the meeting which also included a full report on the state conference of the organization in Toledo. Kenneth Clutter was charged to make a copy of the letter of the Cincinnati Junior Chamber of Commerce on grade elimination. The report was used to guide the local chamber in its proposal to make a study here.

A report on a survey made by one of the junior chamber members on the cleanup campaign disclosed there are a number of empty storerooms in the city which need cleaning. An effort to have display windows of these storerooms decorated and used by nearby merchants is being considered by the chamber.

Richard Von Calio To Be Hero with Salvation Army Head.

Richard A. Von Calio, musician and lecturer will be heard in the musical program which will precede the address by Commander Evanson Booth when she visits Marion on her tour Monday.

Ronald Von Calio will be remembered by many residents here as a guest speaker at the Kiwanis club. He not only is a singer of ability but a musician of extraordinary skill.

Commander Booth's talk will be preceded by a musical program by the Salvation Army Staff Band of New York City at 11 a.m. at the city lot at the corner of Prospect and Church streets.

Moral Baptist Church Society Holds Meeting

MORAL, June 5.—The missionary meeting of the Moral Baptist church was held at the home of Mrs. H. C. Dull southeast of town Wednesday afternoon. Mrs. H. C. Dull had charge of the devotions. Mrs. Floyd Forney had charge of the business meeting. Mrs. Bertha Moore had charge of the program. Several readings were given and two songs were sung. Prayer was led by Mrs. Floyd Forney. The next meeting will be held in July at the home of Mrs. Charles Bursey. A picnic dinner will be served.

# KIWANIANS TO SPONSOR PLAY

"Nights in a Bar Room" will be presented on Saturday and Thursday nights by Wesleyan troupers.

"Barroom," a play by T. S. Arthur's famous author, will be presented on Saturday and Thursday nights by Wesleyan troupers.

The play comes to Marion sponsored by the local Kiwanis club. It will be devoted to the health camp, one of the most noteworthy child welfare projects.

The company is composed of college professional players, all but one exception are Ohio State students at Ohio University.

Charles Newcomb, head of the department of drama at Ohio Wesleyan and Professor for the last 10 years of dramatics at that institution.

W. B. Gorman, an actor with 10 years experience on the professional stage, will play the leading role of Joe Morgan. The leading daughter, Mary will be played by Kathryn Kunkle, an amateur graduate student in the department of speech at Ohio Wesleyan.

The play was revived by a group of players from the University of Kansas last month and the American Century in a recent issue remarked editorially on the new play's prohibition: "One distinct fact about the present situation is that the public has forgotten this much. A few thousand performances of 'Ten Nights in a Barroom' with interspersed recitations of 'The Face on the Barroom Floor' would have an appropriate effect on public memory."

A feature of the Wesleyan program will be the singing between acts of the familiar songs of 30 and 40 years ago and the recitation of "The Face on the Barroom Floor."

## The Stars Say—

For Saturday, June 6

THE stellar influences for this day point to some combinations of fortune or combinations in business routine, possibly caused by involved contracts, misconstrued writings or even malicious slander or vindictiveness. Prudence and prudence are enjoined, and it will not serve to clarify entanglements by indulging a predisposition to contention, strife and violent measures. Impetuosity and rashness will but heighten the hostility and danger. Justice will prevail.

Those whose birthday it is are near the threshold of year in which the affairs may be complicated by malicious slander and enmity or written attacks or misconstrued writings or contracts. With prudence and stability these menaces can be circumvented, but a natural tendency to rash, tempestuous and violent word and behavior may heighten the threatened danger. There is a star favoring eventual justice and truth. A child born on this day should be practical, industrious and well-intentioned, but it may need firm restraint as to tongue and temper and to the direction of honor, veracity and integrity.

Daily Proverb—"Correction should not re-  
spect what is past so much as what is to  
come."

Tex Guinan, barreled from Great Britain and  
France alike, is enroute home on the French  
liner, Paris. "Hello sucker!" is suggested as  
a greeting when the Paris docks in New York.

The \$800,000,000 bond issue announced by  
Secretary of the Treasury Mellon Monday was  
oversubscribed seven times. A billion-dollar  
deficit doesn't appear in any way to have hurt  
the credit of Uncle Sam.

The grape industry feels that another huge  
government loan is the only medicine for  
what's ailing it, but it is not stated whether  
the aid sought is to be listed under the guise  
of prohibition enforcement or agricultural  
relief.

Two students are being held in jail up in  
Ann Arbor, Michigan, until they reveal the  
identity of their bootlegger. If that practice  
becomes general, there will have to be an awful  
lot of jail construction soon for the housing of  
"wet patriots" or gentlemanly bootleggers.

It is evident that if General MacArthur  
omitted anything to make plain his opinion of  
clerical pacifists in his offensive of Monday  
against them it was absolutely without intention  
on his part.

There wasn't any kiss connected with the  
bestowal of the colors at Annapolis this week  
and there was no kissing in the ring dance as  
has been customary, kissing in both events  
having been barred by official order. "Some-  
body's always taking the joy out of life."

William Randolph Hearst, the publisher, ad-  
vocates that the government appropriate \$5,-  
000,000,000 for public works to effect a solu-  
tion of the depression. The plan might lessen  
depression at present, but it certainly would  
lead to a feeling of depression when the time  
came to pay off the bonds.

During the last seven days four New York  
gangsters have been killed in machine-gun  
battles upon the city's streets as a result of a  
beer war between two bands of criminals. If  
it were not for its steady accessions, New  
York's gangster problem would soon solve itself.

The "Chinese Lindbergh" was held over in  
Canton for the immigration authorities who  
claim that he has overstayed his time here by  
years, meanwhile lecturing and raising funds  
for traveling over the land, and among his  
effects were found photographs in which he  
appeared with such notables as former Presi-  
dent Coolidge, Colonel Lindbergh, Ambassador  
Dawes, Thomas A. Edison and Henry Ford.  
"The higher they are, the harder they fall."

**Another "Liberal" Decision.**

The five-to-four decision of the supreme court  
declaring the so-called Minnesota "gag" law  
invalid is rightly held to be of great im-  
portance to the press. The law authorized the  
automatic suppression of a newspaper upon a  
judge's finding that it had regularly published  
"malicious, scandalous and defamatory ar-  
ticles." This meant virtually that a corrupt  
judge could suspend publication of any news-  
paper at will. The Minneapolis weekly con-  
cerned in the case on which the supreme  
court's decision was made had charged that  
certain municipal officials were tolerating  
"rackets." The law used to silence the paper  
was passed at the instance of a legislator seek-  
ing to silence an editor who had been  
criticizing his political policies and character.

The best viewpoint is to be obtained through  
an understanding of the attitude of certain  
Minnesota editors who believe that regulation  
of "certain types of publications," such as  
avowed scandal sheets, "would not be unde-  
sirable," but do not believe that an arbitrary  
"gag" law of the type resorted to by the Min-  
nesota legislature is the best way.

Chief Justice Hughes, who read the majority  
decision, said: "The fact that the liberty of  
the press may be abused by malevolent  
purveyors of scandal does not make any the  
less necessary the immunity of the press from  
previous restraint in dealing with official mis-  
conduct."

The majority opinion claims existing libel  
laws are adequate to suppress untrue and  
malicious assaults; the minority opinion claims  
existing libel laws are inadequate. It would  
seem that the minority opinion's substance  
would be undermined were such laws to be so  
strengthened as to be adequate since its point  
depends solely on the individual's right to pro-  
tect himself.

The decision is notable for its display of the  
new liberal majority—Justices Hughes, Holmes,  
Brandeis, Stone and Roberts, with Justice  
Roberts showing an inclination to waver be-  
tween the old and new majorities.

### Regarding Price Reductions.

If we are to judge by an announcement  
coming from the National Retail City Goods  
association, retailers very generally throughout  
the country resent the recent statement issued  
by the executive committee of the National  
Association of Manufacturers to the effect that  
retail prices have not dropped in proportion to  
the decline in wholesale prices, and the former  
organization offers figures to refute the  
charges of the committee of the latter.

Given the drastic reductions in retail prices  
which were made in 1930 and which continued  
in a marked degree during the first five  
months of the present year, the retailers' orga-  
nization sets out that on 800 representative  
lines of merchandise the retail prices dropped  
20.46 per cent. in 1930 against a drop in the  
wholesale or cost prices on the same items of  
but 16.41 per cent. during the same period, and  
it supports its showing by statistics collected  
by the United States bureau of labor wholesale  
commodity index and the Fairchild retail  
price index. Not only this, but the re-  
tailers' organization in its statement brings  
out that the bureau of labor wholesale com-  
modity index figures include raw materials  
and semi-finished products as well as finished  
products and thus do not represent the cost  
price of merchandise to the retailers. It is  
held further that the only possible ground for  
the wholesalers' charge against the retailers  
apply to those lines of goods on which the  
wholesaler fixes the retail prices and insists  
that such prices be maintained. The exceptions  
to this rule have been where manufacturers  
have improved the quality or workmanship  
of their products, but have retained the  
same price to consumers. On the other hand,  
there have been cases where the prices of  
goods have been decreased by the manufac-  
turer, but with a reduction of the size of the  
product, in which cases the public has not  
reaped benefit from the price reduction.

More than this, the retail organization  
brings out the fact that, contrary to general  
belief, the figures on the cost of living set out  
in the retail index are not based alone on the  
prices of goods sold in stores to supply daily  
needs, but include also such items as rent,  
which usually represents twenty per cent. of  
the family budget, light, fuel, etc., over which  
the merchant has no control. It is also con-  
founded by retailers that the wholesaler, because  
of the immensely greater volume of business  
done by him as compared with that of the re-  
tailer, should be able to operate at a far  
smaller margin of profit, but that, despite this  
fact, the retailer during 1930 made greater  
price sacrifices on 800 articles of essential  
merchandise, and that the retail price reductions  
continued for the first four months of the  
year on such articles as silks, womens,  
sheets, blankets, hosiery, corsets and brass-  
ieres, furs, underwear, shoes, shirts and neck-  
wear, hats and caps, clothing, furniture, floor  
coverings, musical instruments, luggage, elec-  
trical household appliances, china and glass-  
ware.

Without knowledge of the merit of the  
charges and counter-charges being made by  
wholesalers and retailers, it should be evident  
to the ultimate consumer that there has been  
a marked reduction in the prices of life's  
necessities very generally up and down the  
line and that the time is here when he can  
supply his needs at a greatly-reduced expendi-  
ture. In other words, the consumer should  
recognize the present as a mighty good time  
in which to buy.

There is nothing remarkable about some  
people over in Kenton seeing pink snakes. We  
have heard of people seeing pink elephants  
and yellow giraffes with light blue polka dots.

### Social Events.

The annual conference of governors might  
be America's most important political forum.  
It probably never will be, however. It isn't  
smart to talk too much between campaigns.

The recently-adjourned governors' conference,  
which met at French Lick, Indiana, rolled  
along smoothly enough, with the exception of  
several uncomfortable instances when Governor  
Pinchot, Ritchie and Olsen got out of  
hand and created dangerous tension by talk-  
ing of forbidden things. To prevent embarrass-  
ment the last day of the conference, Wednes-  
day, was given over to social events. The  
regular program was called off, lest some one  
say something that might have an effect.

This sort of thing may be good politics in  
theory, but it is likely to have a surprising  
practical rebound. It doesn't make enemies  
among the voters, but it doesn't make friends  
either. In the long run, it contributes to a  
feeling of futility and helplessness, which may  
cause voters to do unexpected things.

It is difficult to anticipate good results  
when the men who have been honored by being  
chosen to lead their states are afraid to tell  
what they think about major public problems.  
It seems to make an alloy-walking busi-  
ness of politics. If governors' conferences are  
potential political dynamite, why have them?  
And if they are to be only star-chamber ses-  
sions with the people held outside by soft  
words and a show of social events their po-  
litical effect is obviously bad. The response  
of the people to the conference just ended is  
an unmistakable disappointment.

### The Lindberghs Again.

Despite the fact they have been in relative  
obscurity of late, Colonel and Mrs. Lindbergh  
are still America's best-known popular figures.  
The mere report that they will cross the  
Pacific ocean within a month for a flying tour  
of the Far East causes every part of a keyed-  
up public interest to vibrate again.

Since the birth of Charles Augustus Lind-  
bergh, Jr., a year ago this month, the Lind-  
berghs have enjoyed the seclusion that becomes  
so dear to popular figures to whom adulation  
is a necessary evil. Public interest demanded  
that they be the subject of stories occasionally,  
but there was no trace of the feverish curiosity  
that followed their every move during the  
courtship and marriage episodes that so intrigued  
the public mind.

This has been satisfactory to every one con-  
cerned. The nation's genuine liking for these  
two splendid young people is generous enough  
to make allowances for their own wishes. The  
new episode in their experiences together will  
attract a vast deal of attention, but somehow  
or other it is easy to believe they won't mind  
much. They've been in the game too long  
now.

"So you met that beauty who advertised that  
she'd marry the man who paid her father's  
debts. What prevented you from marrying  
her?" I found out that she was responsible for  
the debts."

### HELPING HOME INDUSTRY.

### Editorial Opinion.

#### CART BEFORE HORSE.

When people call an economic depression  
world-wide they necessarily imply that its  
causes too are world-wide. But it would be  
more than human if every country did not  
manage to suggest that out in the wide, wide  
world the responsibility for hard times is a  
little graver than at home. In a single day's  
news Mark Sullivan, at Washington, is im-  
pressed by the fact that "much" of the recent  
liquidation on the New York stock exchange  
had a "European" cause. But Professor Cassel,  
addressing the London Institute of Bankers,  
chooses to stress American responsibility for  
the ill of the nations, assigning the chief role  
to the 1929 Wall Street crash. Was that col-  
lapse of twenty months ago precipitated by the  
Harrington failure in London, resulting in a sudden  
demand for the return of British money on the  
New York call loan market? Was the Harrington  
adventure inspired by what was going on in  
the United States? If a little finger-pointing  
is in order, one can think of one or two possi-  
ble directions, and the final effect is like one of  
Thomas Nast's pictures about Tammany Hall.

Even more complicated than who was responsi-  
ble for the economic depression is what was  
responsible for it. Did business get its first  
push downhill from civil war in China, de-  
monetization of silver in India, reparations in  
Germany, drought in Arkansas, too much coffee  
in Brazil, too much rubber in Sumatra, too  
much sugar in Cuba and Czechoslovakia, too  
much nitrates in Chile and Germany, too many  
soldiers in Europe, too many unemployed in  
Great Britain, too much real estate on Park  
avenue and Central Park West? A list of the  
causes of world depression mentioned in par-  
liaments, books and newspapers during the last  
twenty months would easily run into hundreds.  
The trouble with the great majority of them  
is that they are not causes, but symptoms. In-  
digestion, headache, pains in the back and sus-  
ceptibility to colds are not the causes of a run-  
down condition, but its results and signs. When  
a man burns the candle at both ends, he is easy  
game for disease germs. He catches every-  
thing.

Without knowledge of the merit of the  
charges and counter-charges being made by  
wholesalers and retailers, it should be evident  
to the ultimate consumer that there has been  
a marked reduction in the prices of life's  
necessities very generally up and down the  
line and that the time is here when he can  
supply his needs at a greatly-reduced expendi-  
ture. In other words, the consumer should  
recognize the present as a mighty good time  
in which to buy.

Between the ages of eighteen and forty, the  
blood pressure is assumed to be normal at  
about 120. This figure means that the pressure  
exerted by the blood in the vessels of the body  
is equal to that exerted by 120 millimeters of  
mercury.

Of course a reading of 125 or 130 by no  
means could be called abnormal. This is inter-  
preted usually as a "high normal."

As a rule, the blood pressure is higher in  
males than in females. It is found to be higher in  
cold countries, as compared to that found in  
tropical countries.

Heat causes the blood vessels to expand. With  
this dilatation, the pressure is lowered.

The blood pressure can be compared to the  
pressure of water in a pipe. If the pipe is nar-  
row, the water spurts out more quickly than  
the water from a wider pipe under the same  
pressure.

As we grow older, our blood vessels undergo  
certain changes. These changes occur chiefly  
in the walls of the blood vessels. They lose  
their elasticity and become brittle. This change  
in texture leaves less chance for expansion and  
causes an elevation in the blood pressure.

Some individuals grow old quickly. The blood  
pressure is higher for their blood vessels have  
lost their tone. This gives origin to the  
expression, "a man is as old as his arteries."

Persons with tendency toward high blood  
pressure should not indulge in strenuous exer-  
cises. More rest and relaxation are needed by  
such individuals. The diet should contain tem-  
perate quantities of meat, salts, pepper, spices  
and condiments should be reduced.

#### ANSWERS TO HEALTH QUESTIONS.

M. L. Q.—What causes a constant cracking  
in one ear—it disturbs the rest and sleep. What  
can be done for this condition?

A.—This may be due to hardened wax or to a  
catarrhal condition which has affected the middle ear. For further particulars send a  
self-addressed, stamped envelope and repeat  
your question.

M. M. Q.—Can sinus trouble be cured?

A.—Yes. Consult a nose and throat special-  
ist for treatment.

MRS. E. R. B. Q.—What would you advise  
for red eyelids?

A.—Application of one per cent. yellow oxide  
of mercury ointment applied to the lids at  
night should bring about improvement. You  
may need glasses or the redness may be due to  
infection. It would be wise to have the eyes  
properly examined.

M. H. P. Q.—What can be done for paralysis  
of the left side, I am able to walk after eleven  
months, but the arm is still dead and lifeless.

A.—Systematic massage and electricity should  
be helpful. Have your doctor advise you.

H. J. H. Q.—What causes a drowsy feeling  
during the daytime?

—What causes a dull pain in the region of  
the left kidney?

A.—This may be due to auto-intoxication. Be  
sure to avoid constipation.

—This may be due to gas in the system.

#### Dinner Stories.

"Are you going to do any fence mending at  
home this summer?" asked the fellow state-  
man.

"No," replied Senator Borgham. "I have to  
stay in Washington and keep busy burning my  
bridges behind me."

He was new to the course. "Caddie, caddie,"  
he wailed, "this is a terrible course."

Caddie—"Hoots, sir, ye left the course  
twenty minute ago. You're in Mistress Me-  
Luskie's rock garden now."

"Why do so many young men leave the  
farm?"

"Well," replied Farmer Corrington, "in most  
of the cases I have observed it was because  
they couldn't earn their salt as farm hands  
an' wasn't fixed to pay board."

Mistress, interviewing cook—"Suppose I  
wanted you to cook an elaborate dinner for  
about fifteen people—would you be lost?"

## MISSIONARY MEET OPENS

100 Women from Delaware District Attending Convention Here.

More than 100 women from Delaware, Union, Logan and Hardin counties with the local Methodist Home Missionary societies, joined for the forty-seventh annual convention of the Delaware district at Epworth M. E. church here today.

Mrs. C. J. Beaver of Marion, district president, was in charge of the sessions. Mrs. W. H. C. Goode of Sidney, national president, was scheduled to be the principal speaker at the session this afternoon.

The morning was devoted to annual reports and discussions of problems affecting the district. Mrs. Charles Bowers of Forest, Mrs. C. S. Dayton of Marion and Mrs. W. M. Keller of Prospect gave talks.

Mrs. Bowers, secretary of junior work, and Mrs. Dayton, secretary of young people's and life service work, told interesting details regarding their work. Mrs. Keller discussed the financial side of the district organization in her talk on the subject of "Our Budget."

Dr. C. E. Turley, pastor of Epworth, conducted a prayer service at the opening of the convention and Mrs. Emil Sweeney, president of the Epworth society extended greetings to the visitors. Mrs. Frances Thompson of Marysville gave the response.

The morning session was brought to a close with a play, "Just Around the Corner," by Mrs. C. E. Turley and Mrs. A. M. Hunter. Rev. W. Martell George, pastor of Westerville church offered the closing prayer.

Following luncheon served in the church dining room, Miss May Evangeline Lawrence opened the afternoon session with an organ prelude. Mrs. Goode will make the

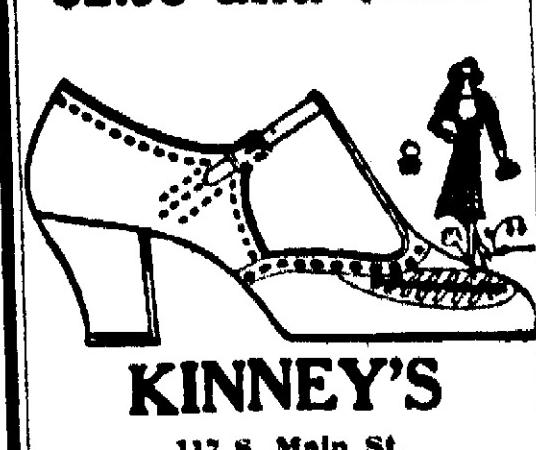

## THE PENALTY of GRAY HAIR

Gray hair—slipping. All these unpleasant ideas seem to go together. Yet, it is not at all necessary. Gray Hair often comes to a young head and people who have a rare, rare shade of gray hair, say, "Why, she has gray hair—and she is off the shelf."

This penalty need no longer handicap the wearer. There is Canute Water. This is a clear, spring-like water of wonderful properties which actually restores hair to its original girlhood color. No complicated "color plan" is needed. Just wash your hair with your hair is blonde. Not only the one kind, but the one battle is enough. It really is surprising what successful youth is resulting from this can. Wash yourself to the privacy of your own home. Many women in town are doing the same thing; they simply do not mention it. You need not be afraid to buy it, for it comes from "your good druggist" and get rid of the "age penalty" in gray hair. Canute Water is so safe, so scientific and sure, that your doctor will refund your money. Sold and recommended by Eckerd's Drug Store or your own druggist. The Canute Co., Milwaukee, Wis.—Adv.

"Yes," he said, "I like it more than anything else, but I get less of it."

"But despite these handicaps, he attained the highest ambition of any American. Nevertheless throughout his life he was unable to disburden himself of his depressive moods."

Dr. Brill says there are "many authorities" for the existence of these moods described variously as the blues, melancholy, abstraction, and mental depression.

"Those who study the deeper recesses of the mind will readily understand the nature of this emotional surging. Two contracting natures struggled within him—the inexperience from an untutored, roving and unstable father, who treated him brutally, and from a cheerful, fine affectionate mother from whom Lincoln claimed to have inherited his power of analysis, his logic, his mental activity and his ambition."

CINCINNATI, O., June 5.—Governor Franklin D. Roosevelt of New York, departed from Cincinnati today after an enthusiastic reception by Democrats from this section of the country who greeted him as "the Democratic standard bearer in 1932."

Governor Roosevelt and his party went to Dayton to visit James M. Cox, former governor of Ohio, and Democratic standard bearer in 1920, when Governor Roosevelt was his running mate.

Police Retain June Taylor for Further Questioning on Coast Slayings.

By The Associated Press

LOS ANGELES, Calif., June 5.—June Taylor, sought since May 20, for questioning about the slaying of Charles Crawford, political boss, and Herbert Spencer, magazine editor, today awaited further examinations by the prosecuting officials after having appeared voluntarily yesterday.

After the initial questioning prosecutors said the woman told them she knew little about the slayings, for which David H. Clark, former deputy district

June Taylor attorney, is held on murder charges. District Attorney Burton Fitts has described the killing as an outgrowth of racketeering.

Special Prosecutor Joseph Ford said the Taylor woman was unable to tell him in determining the movements of Clark immediately after the killings.

A woman giving the name of Mrs. A. M. Donovan, believed to have been June Taylor, conferred with Albert Marco, former Los Angeles underworld leader, now serving a term at San Quentin, in the penitentiary the day after the killing. She was immediately sought for questioning in the case, but was not found. After she explained she had been ill a reporter asked her question. "What else was there to do?"

### OHIOAN PAYS FINE FOR "ENTHUSIASM"

All Due to Stork's Arrival, Says Man Reported To Be Senator's Son.

By The Associated Press

NEW YORK, June 5.—Lowell Fess, 25-year-old sales manager who told arresting officers early today that he was the son of United States Senator Simeon D. Fess of Ohio, was fined \$10 today for disorderly conduct.

Fess was arrested in front of an East 32nd street speakeasy by a patrolman who said he was creating a disturbance. The officer, Richard Broderick, quoted Fess as saying his father was Senator Fess, and that he would get him to "clean up this town."

The police blotter entry charged that Fess, "while intoxicated did use abusive and profane language and attempted to take the officer's baton."

Broderick said Fess struck him in the chest and that he grappled with him. A chauffeur nearby picked up the officer's baton and sounded sharply on the sidewalk, summoning another officer. The two policemen were unable to induce Fess to enter a taxicab to the police station, so all three finally walked.

Fess, after paying his fine, apologized for his conduct to both the court and Patrolman Broderick and explained that he had been celebrating the arrival of a new child in his family and had gotten "too enthusiastic."

### GEMEY

Trimming of 10 Million Leaves

Figure Still Too High for Revenue.

By The Associated Press

COLUMBUS, O., June 5.—When the Senate finance committee returns Monday from the weekend recess, it will undertake the task of trimming an additional \$3,500,000 from the budget for the operation of state departments during the next two years.

This year the committee will have reached its goal of a \$10,000,000 budget cut, \$6,500,000 having been sliced off the \$14,000,000 house appropriations bill yesterday.

The \$10,000,000 reduction will not solve the financial problem, however, because contemplated expenditures still will exceed by \$6,000,000 the estimated state revenues which are expected to total \$58,000,000.

With a \$16,000,000 reduction necessary to balance the budget, the difference of \$6,000,000 will have to be supplied through a new tax of some sort. Indications were that soft drink and tobacco businesses and the utilities would be considered among sources to bear the additional levy.

Governor Roosevelt, however, declined to discuss politics, stating he was busy attending to his gubernatorial duties in New York.

The prediction was made by several Hamilton county Democratic leaders, however, that Governor Roosevelt would head the party's ticket in the next Presidential election and that a "native son" of Ohio would be his running mate, although no names were mentioned in that connection.

**Federal Prisoners Ride in Private Pullman**

By International News Service  
SAN FRANCISCO, Calif.—Federal prisoners sentenced in San Francisco courts will have their own "private and special" Pullman car to make their trips to various destinations. But the "porters" will be armed with rifles, and the passengers will be protected from rolling out of their berths by strong steel bars.

The car was designed for the

benefit of federal prisoners by United States Marshal Fred Esola, and is the only one of its kind in the world. Steel cells are constructed inside the car. There is a separate compartment for women prisoners. A system of mirrors will enable guards to keep constant watch over their charges without leaving their compartments.

The man who names Puninata had the painter letter "Lordburg" on the side of the car.

We often wish the dead could know how much we mourn them.

## ENGLAND TO ACQUIRE BIG NATIONAL PARK

**Britain Plans Area Similar to Yellowstone in United States.**

By International News Service  
LONDON—Britain is to have its great National Park, on the lines of Yellowstone Park in the United States and Jasper Park in Canada.

This is the decision of the Committee appointed by the Labor Government last year, according to the "Daily Herald," Labor organ which states the Committee will suggest a number of suitable areas, leaving the Government to make its selection.

The proposed National Park will serve a dual purpose. It will be a holiday center for walkers, campers and other lovers of the open air and a national preserve where British bird, animal and plant life will be allowed to flourish.

Numerous areas were suggested to the Committee as being the most suitable. It is probable the Government's decision will be the Forest of Dean, a beautiful stretch of natural forest and parkland in Gloucester county.

### FOSTER CHEERED

Unity League Leader Addresses Communist Crowd at Youngstown

YOUNGSTOWN, O., June 5.—Three thousand Communists and their sympathizers stood in the rain last night to cheer denunciations of police they battled on Memorial day. Eighty-five unneeded bluecoats gathered in sheltered spots to watch and listen.

William Z. Foster, secretary of the Trades Union Unity League, declared police, in breaking up a Memorial day parade, which was unauthorized, displayed "brutality beyond that ever shown in darkest Russia." A number of police and demonstrators were injured in the Memorial day riot and 70 persons were arrested.

Foster, described as the man who led the steel strike here in 1919, was introduced as "the man who will lead the next mass strike in Youngstown." He asserted that the government is doing nothing for 10,000,000 unemployed.

## SCHOOL PATROL GROUPS DISBAND AFTER TERM

MARION'S two School Boy Patrol groups at St. Mary's Parochial and Central Junior High gave valuable service, school officials said at the close of the term.

St. Mary's patrol was divided into two groups, one at George and Prospect streets and the other at George and Main streets. The Central Junior patrol was active on both sides of Center street at Union street.

The boys were given power to regulate traffic in the morning, at noon and at night, when school children were crossing the streets.

Both patrols held regular meetings and elected officers. The Central group had its own traffic court with judges in which school "lawbreakers" were tried.

Members of the St. Mary's patrol, in the upper picture, are, left to right: First row, Richard Amann, captain of the patrol, Dean Bianchi, Ross Edler, Ralph Nicholas, John McAndrew, Joe Fabian, Frank Murphy, Charles Davis, and Robert McNamara, president; second row, William Tanner, Dale Greenland, Gale Greenland, Robert O'Neill, Jack Schuler, Henry Drake, Anthony Uliano, Raymond Wolfe, standing in doorway, Clyde Brown, John Wells.

The Central Junior patrol members below, are left to right: First row, William Collins, Claude Dutcher, Sylvester Lucas, Albert McGonagle, Gerald Seckel, Kenneth Jerow, president of the patrol, Dan Saiter, Karl Bechtel, chief judge of the traffic court, Earl Powelson, Wilbur Shannon; second row, Hubert Goerlich, Robert Rimesmith, Ronny VanScoy, Donald Platt, William Hagan, Robert Gilbert, Carl Miller; third row, Edward Barnhart, Jacob Moore, Thomas Zuck, Donald Westervelt, Harold Morgan, Stuart Brock, Miss Grace Colvin, patrol advisor is in the background.

### DISCUSS CURTAILING OF NAVY'S EXPENSES

Pres. Hoover Continues Week-End Economy Conferences with Cabinet Officers.

By The Associated Press

WASHINGTON, June 5.—President Hoover will discuss the possibility of curtailing expenses of the naval establishment with Secretary Adams and other naval officials tomorrow at his Rapidan camp.

Secretary Adams is prepared to inform the chief executive a saving of about \$7,000,000 was brought about this fiscal year due to conferences last summer. He is expected to assure the chief executive a similar amount probably would be returned to the treasury next year. The reductions are not expected by naval officials to impair departmental efficiency.

The curtailment is expected to come through rigid economy and the abandonment of obsolete shore stations. A general movement toward closer concentration of naval activities was instituted last year, particularly on the Atlantic coast, and this is expected to be continued. Operations at a few stations were reduced in 1930 and economies were effected.

## Today in Marion Markets

### Groceries, Produce, Meat, Grain, Livestock

Strawberries being quoted at 20 and 25 cents a quart, was practically the only price change announced by dealers today. While a few berries are coming from Kentucky, the larger part of the supply continues to come from Tennessee. The quality is good and dealers report heavy buying.

Pineapples continue as leaders, prices cover a wide range, depending upon the size. The supply is large. In less than canning lots, the fruit is selling at 18 to 25 cents. Cantaloupes are becoming more plentiful and some dealers were offering small fruit at two for 25 cents today.

Vegetable prices were steady. New potatoes were being offered at from 30 to 50 cents a peck with large supplies coming in and prospects for an immediate advance are not good, dealers say. Green vegetables are plentiful and dealers report buying about normal.
